

Minutes: Curriculum Committee

Date:

Start Time:

End Time:

Location:

Attendees: Dr. Bhattacharyya
 Bushhousen, Ellie
 Childs, Gail
 Dr. Clark

Excused: Dr. Bhattacharyya
 Bushhousen, Ellie
 Childs, Gail
 Dr. Clark

Guests:

AGENDA	DISCUSSION	NOTES/ ACTION ITEMS
Approval of Minutes	The January 23, 2012 minutes were approved via email.	Approvals (Rey, Culp, Guelmann, Robinson, Bhattacharyya, El-Kerdani, Sposetti)
Communication -Email sent to Dr. Nery Clark asking her workgroup to review the impact of extramural rotations on comprehensive patient care in TEAM clinics.	Dr. Clark reported that the rotation workgroup met and reviewed clinical rotation hours, student evaluations of rotations and available clinical data. She shared workgroup discussion about intramural and extramural rotations. Some of the potential barriers to comprehensive care and case completion in the student clinics were discussed in length during this presentation. The students have provided overall positive feedback on the extramural rotations. In comprehensive care clinics the workgroup also observed that there appeared to be no direct correlation between RVUs and case completion. Dr. Clark indicated that the workgroup had not vetted all of the documentation she has been gathered and that it would be extremely difficult to arrange another meeting within the timeline she was given. Details regarding the impact of the rotations on comprehensive care are difficult to establish since not all data is available to the workgroup. Summary of the workgroup findings are attached to the minutes	Dr. Bhattacharyya requested that Gail Childs and he meet and summarize the issues raised in the rotation discussion so that a report could be provided to the Dean.
Student Recommendations	None were presented and no students were present.	
Curriculum Management-Debriefings Fall 2012 Course Evaluation Summary Semester 1 Syllabi Evaluations	DEN 6407C Preclinical Operative Dentistry II Debriefing Action Plan DEN 6213C, Fundamental of Occlusion Debriefing Action Plan-NOT RECEIVED DEN 7413C, Removable Partial Prosthodontics: Principles & Techniques Debriefing Action Plan G. Childs presented the Fall 2012 Course Evaluation Summary table. There was an increase in student response rates to course evaluations with the use of clickers or student portable computing devices when class time was allocated. G. Childs reported she would be distributing the assignment via email.	Information Items. The Curriculum Committee had no further recommendations.
New Business	Course Director Changes Operative Clinical Series, DEN 7744L, 7745L, 7746L, 8747L, 8748L, 8749L, from Dr. Ottenga to Dr. Dilbone. DEN7442, Overview of Advanced Oral and Maxillofacial Surgery from Dr. Stavropoulos to Dr. Dolwick DEN7442L, Hospital Dentistry from Dr. Stavropoulos to Dr. Torres.	Information Item
