Old Business	<p>Annual Extramural Rotation Report</p> <p>Clinical Exam 1 for the Class of 2016</p>	<p>Dr. Gibbs provided the Annual Extramural Rotation Report (see handout). There is an expected expansion in the number of partnership sites. Dr. Gibbs makes sure that students are provided with a range of dental service experience at teach site and that students utilize dental assistants. A local database is used to collect all student services provided at the off sites. No competency assessments are conducted at these sites. Housing and transportation costs remain the largest expenses to the program. Dr. Sposetti asked if this information could be reported by child (<21 years) and Adult (age 21 and over). Dr. Gibbs indicated that this reporting is possible.</p> <p>G. Childs reviewed the outcomes of Clinical Examination I for the Class of 2016. Currently a new Course Director has not been appointed. Dr. Sposetti provided an update on the Clinical Examination I workgroup. Due to the number of individuals that would like to part of this workgroup she has created a survey on Qualtrics for faculty and student to provide feedback which will be sent within the next week. She will then appoint a workgroup to review this data and plan for the next iteration of the course.</p>	<p>Gibbs will run reports for child and adult visits and report this information back to the committee.</p> <p>Information Item</p>
