Subject: Maryland Bridge Elective

Dear Nini,

The division of prosthodontics has decided to eliminate the Maryland Bridge Elective course at this time. The material given in this course has been incorporated into the DEN6415 Fixed Prosthodontics 2 course and it will be redundant to teach it in both courses. Additionally, this treatment has evolved with the new ceramic materials and adhesive technologies which has also been added to the fixed course. Please let me know if you have any questions.

Thanks so much and have a nice day!

Sincerely,

Luisa F. Echeto, D.D.S., M.S.
