<b>Curriculum Management</b>	Small Group Case-based Learning	Gail Childs reported 3 of the 5 Cases using small group case-based learning were/are scheduled in the 2016-2017 academic year as compared with 5 cases in the 2015-2016 academic year. Reasons for this include a Course Director change and a case that was transitioned to an online case. Without dedicated curricular time, faculty time and training sustainability is challenging. A suggestion was proposed to integrate these cases in DEN6302C, Introduction to Clinical Diagnosis and Treatment Planning.	Dr. Sposetti and Gail Childs will meet with Dr. Howard to discuss the feasibility of the case integration.
