

MINUTES: Curriculum Committee

Thursday, July 13, 2017

Time: 5:15 pm

Location: D4-16

Members Present: D. Dilbone, presiding, C. Widmer, G. Childs, R. Caudle, M.E. Castellanos, A. Alvarez, K. Radner, C. Migliorati, A. Tow, A. Delgado, J. Hardeman , L. Mugayar, M. Dawley, R. Gonzalez

Excused: S. Meyer, V. Sposetti , B. Sleeth, T. Kompotiati

Agenda	Item	Presenter/Discussion	Action/Motion
Minutes	Minutes	The committee reviewed the June 1, 2017 minutes.	Motion: Approve June 1, 2017, meeting minutes. (Hardeman/Dawley) Approved.
New Business	<p>Confirm Committee Chair and Vice Chair nominations</p> <p>Curriculum Committee Meeting Dates, July 2017 – June 2018</p>	<p>Dr. John Hardeman was the one confirmed nominee for Chair. Dr. Alex Delgado and Dr. E. Castellanos were the confirmed nominees for Vice Chair.</p> <p>G. Childs asked the members to confirm that they have received Outlook appointment requests for the 2017-2018 academic year.</p>	<p>The Office of Education will send an electronic ballot for Vice Chair. (The e-ballot was distributed yet in the process, Dr. Castellanos withdrew.) Dr. Delgado is Vice Chair by abstention.</p> <p>Members will contact the Office of Education if they did not receive these meetings or need assistance with Sharepoint.</p>
Curriculum Management	<p>Semester 2 Debriefing Summary</p> <p>Semesters 1-5 Debriefing Summary</p>	<p>Ms. Childs reviewed the Semester 2 debriefing summary recommendations which included, considering starting with the respiratory system in physiology; ensure faculty and TA's are sharing the same formative feedback to students; using online quizzes to assess student preparedness for lab sessions; have peer faculty review exam question wording and classes with optional attendance offer discussion/seminar opportunities with faculty.</p> <p>G. Childs reviewed the Semesters 1-5 debriefing summary. Overall, students felt they well prepared for NDBE Part I. They would however, value more unscheduled days for study. Additional recommendations included; change the purpose of Clinical Exam I to identifying what patient care experiences students can complete under what level of supervision by clinical faculty; integration of earlier clinical experiences; more flipped-classes, re-sequencing radiology lab rotations and integration radiographic integration in each discipline, clinical</p>	<p>The Office of Education will share these general suggestions in course planning meetings. Dr. Ribeiro has begun a training series with RDS TA's which includes types of feedback appropriate for the level of student.</p>

	DEN 5502C Debriefing Summary	<p>relevance of dental biomaterials instruction, and incorporation of occlusion concepts throughout the RDS courses.</p> <p>There was discussion of some 2DN students requesting to take the NDBE Part I earlier, as they hear this from peers in other programs. This this was not supported by the Office of Education due to foundation knowledge integration and board review in the semester 4 & 5.</p> <p>There were some debriefing comments about access to the Sim Lab on weekends and there was a request for more transparency on the Sim Lab schedule on when students can or can't access during CE courses.</p> <p>Students continue to request better axiUm integration in the curriculum in closer proximity to entering patient information.</p> <p>A curriculum committee member indicated that DEN6350: General Pathology has 4 exams and that DEN6128 has 5 exams and this should be reversed based on the amount and depth of the content in the Pathology course.</p> <p>Ms. Childs noted students were positive about the new cariology course. Students especially appreciated the earlier clinical experiences. There was no consensus on removing some redundancy in this course and Operative I as some students appreciated the repetition with the clinical emphasis. Students did report redundancy in the nutrition content with DEN5210 in Semester 1. Not all students were able to complete their presentations to the class due to lack of scheduled time and suggested that the presentations extend throughout the course.</p>	<p>Considering the current pass rates and implementation of the INBDE beginning with the Class of 2023 it was agreed no action was needed other than the consideration of additional study time.</p> <p>The Office of Education will work with the CE Office to evaluate if we can add more detail to the weekend Sim Lab schedule.</p> <p>Dr. Migliorati reported that Tennessee developed axiUm video tutorials that he has copies of and is in the process of reviewing that they match UFCD entries.</p> <p>The Office of Education will share this request with the Course Directors.</p> <p>Dr. Nascimento is currently working on with Clinical Administration and the Office of Education to fine-tune the sequencing of the scheduling in this course for 2018.</p>
Workgroup Updates	<p>Global Assessment</p> <p>Earlier Clinical Experiences</p> <p>Evaluation of TEAM Program</p>	<p>Dr. Sposetti and Ms. Childs have reviewed the 26 competency statements with proposed global assessments for the next workgroup meeting</p> <p>Action items from the last workgroup meeting included developing levels of clinical activity and a draft blueprint for earlier clinical experiences.</p> <p>This workgroup will meet the upcoming week.</p>	

Outcome Measures	NDBE-Part 1 - Class of 2019 Class of 2019	Ms. Childs reported that the Joint National Board for Dental Examinations report was received and confirms 100% pass rate for NBDE, Part 1 for the Class of 2019.
