

UNIVERSITY OF FLORIDA

COLLEGE OF DENTISTRY

KEY HIGHLIGHTS

University of Florida - Top 10

In September 2017, UF became the first Florida school to break into the list of top 10 best public universities, coming in at No. 9, according to the 2018 U.S. News & World Report Best Colleges rankings.

The U.S. News rankings are based on key measures that are used to capture various dimensions of academic quality at each university. The measures fall into seven broad areas: undergraduate academic reputation; graduation and retention rates; faculty resources; student selectivity; financial resources; alumni giving; and graduation rate performance.

Research

According to the Blue Ridge Institute for Medical Research, the UFCD research enterprise now ranks fifth nationally among all U.S. dental schools in National Institutes of Health funding. Illustrative of this success, the college's Comprehensive Training Program in Oral Biology received a William J. Gies Awards for Vision, Innovation and Achievement during the American Dental Education Association Annual Meeting in March 2018.

UFCD 2019-2024 Strategic Plan

We completed a new strategic plan, a process that included participation from internal and external constituents including current faculty, staff, students and residents, retired faculty, alumni, industry representatives and leaders at UF Health and UF. Our new strategic plan serves as a roadmap through 2024 to allow thoughtful allocation of resources and energy in directions that best serve the college as a whole.

DMD Program

While applicants to U.S. dental schools have, overall, declined nationally, our predoctoral program saw a five percent increase in applicants with 1,526 during the most-recent application cycle. Our DMD applicants continue to have impressive academic credentials, and research and volunteer experiences.

The 2017 entering class Dental Aptitude Test averages are: Academic 21; Perceptual Ability 20; and Total Science 21.

Our DMD students achieved a 100 percent first-time pass rate on Part 1 of the National Dental Board Exam—we are very proud of their continued success.

Advanced Education Program

UFCD is one of only three U.S. dental schools with residency training in every dental specialty recognized by the American Dental Association. Our programs continue to attract outstanding applicants and most of the programs' graduates earn a 100 percent pass rate on board exams. The American Board of Pediatric Dentists, or ABPD, is the only one that bestows awards for those with high scores on their exam.

This is the third consecutive year that two residents from the UF pediatric dental residency program earned a Pugh Award—one from the Gainesville cohort and one from Naples. The award honors the top three percent of the scores in the ABPD Qualifying Examination across the U.S.

Interdisciplinary Education

UFCD's focus on interdisciplinary education has heightened over the past four decades with the increased recognition that collaboration between health care providers leads to better patient outcomes.

The newest collaboration is with the College of Pharmacy that launched in May 2017, "Doc, My Tooth Hurts." Two shifts of 93 dental and 240 pharmacy students gathered to learn how to care for their respective patients, simulating what happens in a real clinical environment, where multiple disciplines affect the health of each patient.

UF Summer Health Professions Education Program

UF SHPEP, spearheaded by UFCD faculty, began its second year in May 2018. SHPEP allows 80 pre-health students from across the U.S. to attend a six-week program to learn more about careers in dentistry, medicine, nursing, pharmacy, public health and health professions, physician assistant studies and veterinary medicine.

Students participate in a variety of activities including a head and neck tumor panel, disaster response training, and "Closer Look" events in participating colleges and programs. The 2018 cohort includes 79 students (47 female/32 male) representing 14 states and 16 colleges/universities. Of those, 51 identify as Black/African American; 3 Afro-Latina; 20 as Hispanic/Latino; 4 as Native American; one as Asian-Latino.

Faculty Hiring

During the past year, 19 new faculty members joined the college. Of those, four are in community dentistry and behavioral science; two are in endodontics; seven are in restorative dental sciences; one is in oral and maxillofacial diagnostic sciences; three are in oral and maxillofacial surgery; and two are in pediatric dentistry. An additional 11 new faculty are expected to begin before the end of 2018 and searches are ongoing for eight more positions.

UFCD DMD Students According to Race & Ethnicity

| Entering Class Year | 2017 | 2016 | 2015 | 2014 | 2013 | Total |
|------------------------|--|------|------|------|------|-------|
| Native American | 0 | 0 | 0 | 0 | 0 | 0 |
| Asian American | 21 | 24 | 19 | 23 | 12 | 99 |
| African-American/Black | 4 | 2 | 6 | 2 | 9 | 23 |
| Hispanic | 17 | 27 | 24 | 18 | 26 | 112 |
| White | 45 | 39 | 34 | 46 | 41 | 205 |
| Other | 6 | 1 | 10 | 4 | 5 | 26 |
| Total Entering Class | 93 | 93 | 93 | 93 | 93 | 465 |
| Total | Under-represented Minorities =135/465; 29% | | | | | |

UF Capital Campaign

In 2017, UF launched Go Greater—a \$3 billion campaign, ending in 2022, that builds on the university's call to enlighten, lead and serve citizens and society at large. The campaign emphasizes projects and programs that encourage collaboration across all of UF's colleges, units and partners.

The \$3 billion goal was established so UF can go greater in our communities, and our state, nation and across the globe. The UFCD portion of that goal is \$28 million to fund important initiatives, including endowed professorships, scholarships, centers focused on excellence in digital dentistry and children's oral health, and other naming opportunities.

Hospitality & Services Training

In October 2017 UFCD launched Hospitality & Services training. The program provides a set of standards that urge us all to help create an even more welcoming and hospitable work environment – no matter where we work across our school. The program addresses four areas: hospitality, teamwork, communication, and professionalism and responsibility.

2016-17 ANNUAL REPORT

UF College of Dentistry Patient Visits to UF-owned centers

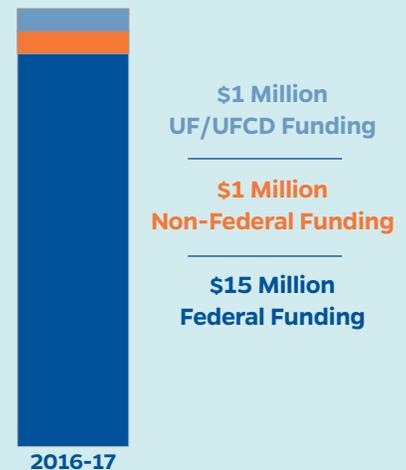

Through the UF Statewide Network for Community Oral Health, which includes college-owned clinics and partnership clinics throughout the state, the college treats patients from all 67 Florida counties.

REVENUES BY SOURCE \$71 MILLION

| | | |
|--|---------------------|-----|
| State General Revenue <i>(includes tuition & fees)</i> | \$22,867,848 | 32% |
| Clinical Collections | \$19,710,392 | 28% |
| Misc. Income <i>(includes GME & clinical service contracts)</i> | \$6,252,550 | 9% |
| Grants | \$12,921,778 | 18% |
| Research Foundation | (\$5,257) | <1% |
| Trust <i>(other revenues, auxiliaries including CDE)</i> | \$6,925,393 | 10% |
| Florida Foundation | \$2,334,666 | 3% |
| Other restricted revenue | (\$191,099) | <1% |
| Strategic funds revenue | \$168,468 | <1% |
| Total revenues | \$70,984,739 | |

RESEARCH FUNDING

UFCD received more than \$17 million from all sources in contracts and grants to seven departments. The college houses eight research centers including the Pain Research and Intervention Center of Excellence, the Center for Dental Biomaterials, the Center for Molecular Microbiology, the Dental Clinical Research Unit, and the National Dental Practice-Based Research Network.
