Moving the course to semester 4 or 5 was not recommended since the foundational information in that course was important to understanding concepts in other course, particularly Physiology. It was suggested to remove some of the repeated information in DEN 5210 Developmental Biology and insert biochemistry. The students confirmed the redundancy of information in the course and that it was later covered in other courses.</p> <p>Dr. Sposetti walked the committee through the student's feedback on the special needs elective. The first student taking this elective overall felt the elective was an outstanding clinical experience and suggested access to or a print out of the patient's record would be helpful in the future.</p> <p>Dr. Luisa Cassiano-DEN6408C: Preclinical Operative Dentistry III Dental Biomaterials Curriculum- DEN7717C: Clinical Use of Dental Materials - Course Director to be identified for Fall 2018.
