Agenda	Information, Notes, and Updates
Class of 2021 Items – Megan Guerra	No new reported items to discuss.
Class of 2022 Items – Catherine (Jenny) King	No new reported items to discuss.
Class of 2023 Items – Drew Anderson	No new reported items to discuss.
Class of 2024 Items – Andrea Nazari	<ol style="list-style-type: none">1. It makes it very difficult to listen and learn lectures (from all different classes) when they are not updated and current. The audio is low or even muffled on some lectures. Is it possible to update lectures for rest of semester or starting in spring?2. Is it possible to include closed captions on lectures?3. Concerns over access to the dental student lounge and 3rd floor of the library, both of which are currently closed. Note that medical students have had access to a lounge in the communicore and also access to many student rooms and spaces in the Harrell building.4. Critique for the hybrid model and online exams in general is that there is no way to review an exam after taking it.<ul style="list-style-type: none">• Student suggestion: Professor should hold a Zoom to go over any highly missed questions or just take 30 minutes to review the answers.5. Students from other classes are concerned about the D1s school experience. With the stresses of dental school already, on top of the stress and separation from classmates and friends, some have experienced increased stress and it has affected their mental health. These sentiments have also been expressed by D1 students who are looking for a solution, if any, to this.
