

Call to order

A meeting of the [Student Affairs Committee](#) was held in [D4-16](#) on [January 30, 2019](#)

New business

- 1) [Committee Meeting Frequency](#)

- 2) [Class Concerns](#)

[Tanner Brunsworth, c/o 2019](#)

- Unevaluated tx is a requirement for senior check out and currently, even if you get it swiped by the appropriate faculty, it still shows up as unevaluated tx so there's some sort of error in axiUm.
- Low student moral during the high stress time period with implementation of limited screenings during clinic for boards.

[Megan Guerra, c/o 2021](#)

- X-ray machines for the Sim Lab. Currently, we only have 3 which means that about 30 people are sharing each machine. Last week on Wednesday and Thursday about 1/3 of the class was here until 7pm waiting for a chance to use them for our Endo class.
- Sim Lab schedule available online, similar to the calendar on ECO. This may take some coordination between Marilyn and the Office of Ed but I think 1st and 2nd years would really benefit from this.

Brian Smallwood, c/o 2022

- Recording issues for lectures. This has been addressed with but Brian wanted to offer a solution for other classes if they're running into the same problem.
- Physiology course having different material. Issues with tutoring.

Announcements

UF Center for Autism & Related Disabilities (C.A.R.D) Workshop

Date: February 6th, 2019
