**UFCD Curriculum Committee Proposal:**

To increase the Continue Education requirement for graduation

3DN Year from 6 CEU's to 9 CEU's.

4DN Year from 6 CEU's to 12 CEU's

Alternatively, not increase the number of CEU's and no longer allow course assignments as CEU hours.

**Background:** [Continue Education requirement for graduation](#)

The Continue Education requirement for graduation are 12 CEUs (6 in junior year and 6 in senior year) is equal to 12 clock hours or the equivalent of two full days of CE courses.

CEUs in excess of the 6 hours required in the junior year cannot be used to satisfy the requirements of the senior year. You may elect to acquire 2 of your 6 required CEU's each year in an online format.

The goal of this expectation was to provide a translational pathway for lifelong learning.

**Justification:** Students have begun receiving CEU credit for course assignments. Examples:

DEN7018: Spring Synergy 2-6 hours

DEN8018: Spring Synergy 2-6 hours

DEN8321: Professionalism Day -5 to 6 hours

Class assignments, which provide CEU's defeats the purpose of this lifelong learning goal.
