Payment Options

For your convenience, we honor all major credit cards, checks and cash for dental payment. Payment is expected at time of service.

Online Payment

We request that you pay online through a secure link from our website at dental.ufl.edu.

UF Payroll Deduction

UF employees and their families may pay for their dental care through payroll deduction. Let us know at the time of your appointment if you are interested in using payroll deduction. Note that some restrictions may apply.

All fees are subject to change.

DMD Student General Dentistry 352.273.9097

Quality, affordable care is provided by dental students under close supervision of experienced faculty in our general dental centers. We treat patients from 14 years of age & up.

Fees are generally 50 percent less than private practice. Before becoming a patient, an initial screening appointment will be done to ensure that your dental needs are compatible with students' educational needs.

Faculty supervise and evaluate each treatment step provided by student dentists, so treatment takes longer than in a typical dental office. If that works for you, and your dental needs meet our students' educational needs, this could be a great option. If your dental needs aren't suited for this educational environment, we will refer you to another care group where residents or faculty provide care.

Call to have a screening form mailed or download one from our website:
