	<p>looking at the patient's needs and the patient's progression of care. Discussion with the 3DN-4DN representatives reveals contradiction from the educational requirements with the focus of the patient's needs. Oral surgery states that regularly patients are scheduled with SOS-comp care for a provider other than their assigned provider(s). Dr. Migliorati will bring this topic up during the Team Leader/Treatment Coordinator meeting on 12/12/19.</p> <ul style="list-style-type: none"> • Image quality : Dr. Migliorati, Dr. Howard, Gerald, Richelle and Terri worked with XDR to improve the quality of the images. The settings were applied across the clinics. • Safety Concern: Allowing D1 and D2 students to perform treatment on patients at the FreeDOM clinic puts our students and the school at risk. Dr. Migliorati is inclined to say that only D3 & D4 students may be allowed to volunteer for mission service. The committee members present shared Dr. Migliorati's concern and support his initiative to reduce the risks for the mission patients, our students and the school. Recommendation from Dr. Bowers to either add language to the code of conduct or code of ethics that no provider (dental student) will practice out of the level of skill that they have acquired. Dr. Corsaro offered that

	<p>Dr. Gibb's provides a good orientation to the students before they go on a mission/service trip. Each trip has a UFCD faculty advisor responsible for the trip. Dr. Migliorati indicated that Dr. Gibbs has been identified by the Dean as the person in charge of this and perhaps she can offer the committee some insight at the next meeting.</p> <p>IT Updates</p> <ul style="list-style-type: none">• axiUm Update: The 7.04 update has gone well, exception: when changing fees on the fly, the system requires multiple confirmations for every fee on the treatment plan. For the PreDoc clinics, there are very few occurrences for fee changes without an adjustment form; therefore, enforcing more restriction on changing fees on the fly has minimal impact.• eRx: OMFS requested some information and training on the process. Concern for who will be responsible for selecting the pharmacy for the patient- what patient flow. (Target date and workflows- and then annual training). Florida law does allow for patients to shop around for best prices, and we must have a system in place to answer this patient need.• Wildlight:• MiPACS: Some workstations remain on local 1, and IT is investigating this concern. Some machines are pointing to local 1, and not connecting at all. Additionally, the CBCT download time- OMFS reports the speed is much quicker today.

<p>Student Roundtable</p>	<p>Class of 2020: None reported</p> <p>Class of 2021: 3DNS want to bring their self-recruits to their home clinics and not to the screening clinic. Concern about not having the Spring schedule available much sooner, and how not having the schedule is affecting the continuity of care. Dr. Migliorati shared that we are waiting on final word from the departments.</p> <p>Class of 2022: 2DNS want to know why they are not able to get teeth from the clinics- Oral Surgery stated they save teeth and that it may be easier if the class developed a plan to fairly dispense the teeth. Nicole wants to send a message to her classmates about mission trips and asked how to frame this topic. Dr. Soto recommended she get the language from Dr. Gibbs. Dr. Soto also suggested that there are some CODA requirements regarding this topic.</p>	
<p>Faculty Roundtable</p>	<p>Dr. Bowers shared that we have some opportunities for improvement in the training for activation of the medical emergency response system. Quarterly M&M where individuals present their cases.</p> <p>Dr. Hardeman requested that Clinic Administration provide some glutaraldehyde for the teeth collection, Dr Migliorati agreed to this request</p>
