Old Business	<ul style="list-style-type: none">• Joint meeting between IT and Research Committees to discuss BIG MOUTH project; Jan 20, 2021	<p>Dr. Walji introduced COHRI and BigMouth as a platform and provided a 15+ min demonstration on how to query data. Dr. Walji described uses of platform included log on, data search of individual institution or multi-institution clinical data evaluations, student access for education, assist NIH grant submissions, publications, and possibly other uses. Level 1 vs. Level 2 searches were described.</p> <p>10+ min for Q&A – several questions were focused on clinical use/coding of data (and underlying case number assessments) in nature.</p> <p>Search terminology is limited at the moment to Axium-based coding, MeSH format is not supported (PubMed type). Fee structure discussed. Standard searchers w/o requested reports in spreadsheet form generally do not have an associated fee structure. Use is primarily focused to clinical/translational research, educational component, and elements may benefit basic researchers. Publications using Big Mouth data mining do not require additional considerations for authorship despite datasets originating from other institutions – only a need to</p>
