AGENDA	Discussion	Action
Welcome	Chair: Andrew Corsaro Call to order at 12:01 PM Quorum Reached	
Approval of Minutes	Review of minutes from 1/12/22: motion carried to accept corrections as written	Carrie Thurman will post to website
Highlights from Sub-committees	No updates at this time <ul style="list-style-type: none">• SIP-Subcommittee has an upcoming meeting•	
Old Business/New Business	Committee Leaders: Update from Committee Leadership: <ul style="list-style-type: none">• SIP Charge: During the mock boards, there was a concern shared regarding the location of the paper towels and the hand soap/sanitizer. We would like to have the SIP evaluate the concern and propose an alternative if indicated.	

AGENDA	Discussion	Action
--------	------------	--------

	<ul style="list-style-type: none"> • SIP Charge: Please evaluate the current location of the sharps containers and consider alternative locations, which are aligned with, UF EH&S guidelines and the OSHA and CDC requirements. • CSELFR: We are allowing students to schedule their self-recruited patients into the open chairs for treatment planning for the remainder of the spring semester. Students will have the option to have the patient scheduled in either location. The costs remain the same, the workflow process in clinic differs. Dr. Migliorati shared a concern that historically, the self-recruited patients were accepted without regards to complexity, and he stated his hope is that this perspective is taken into consideration. <p>Update from Clinical Affairs:</p> <ul style="list-style-type: none"> • CPU update: We are replacing the CPU and monitors in the predoctoral clinics. The monitor specifications were reviewed and jointly approved of by radiology and clinic administration. The monitors will be fixed to the wall with articulating arms. The change will occur in the August break. • Valo light update: We purchased additional

	<p>valo lights for the clinics, in an effort to help provide more resources in clinics and for the patient boards.</p> <p>Update from IT-</p> <ul style="list-style-type: none">• Pushed out a “hot fix” from axiUm to address the scheduler and the treatment planning issues. We see evidence in the database performance; we should not be seeing any more treatment plan freezing in the clinics, if it occurs please let us know. Dr. Migliorati shared he had a limited screen view restricting his access to the menu. Stephen stated this is a workstation setting and to submit a helpdesk ticket.	
<p>Student Roundtable</p>	<p>Follow up from the concern raised regarding a clinic assistant, we are addressing this concern and encourage students to speak with Richelle if they would like to share their concerns directly.</p> <p>Door closers: This remains an open topic</p> <p>Class of 2022:</p> <ul style="list-style-type: none">• Seniors were confused; they do not understand the message regarding how they registered for the exam. Essentially, there were 86 of 88 students who needed to indicate they are taking the exam on a patient (rather than a manikin). Nicole will meet with Dr. Corsaro to help us better understand the	<ul style="list-style-type: none">•

	<p>student/candidate view when registering for the ADEX board administered by CDCA/WREB.</p> <ul style="list-style-type: none"> • Will we be able to screen patients and/or treat patients during the break week? This request will be addressed by clinic administration with RDS and Perio. • Classmates are complaining about prosth grading calibration, in particular variation of downgrading students for asking questions. Dr. Corsaro shared that what the students are seeing is actually a direct result of calibration. If a student is performing to the standard/expectation, the grade should be an A. Dr. Dilbone, the interim chair of RDS, is planning to meet with the classes to explain the expectations. <p>Class of 2023:</p> <ul style="list-style-type: none"> • A couple students complained the hard-tissue form in clinic does not have enough space for them to write all that they find in the examination. Recommendation: It is best if the class brings this concern to Dr. Ribeiro or Dr. Terza (RDS-Operative) to address. • Other concern from the class has already been
