Local Dentist Recognized with Florida Dental Association Leadership Award

MELBOURNE, Fla. (July 3, 2024) – The Florida Dental Association (FDA) is proud to announce that Dr. Gregory Chace, of Melbourne, was recognized with the Leadership Award at the 2024 FDA Awards Luncheon in Orlando.

Dr. Chace attended college at Western Carolina University and Florida International University, earning his associate degree, and then worked as a bank administrator while his wife was attending dental school at the University of Florida College of Dentistry. His wife's experience in dental school inspired him to pursue the profession. He returned to school to finish his undergraduate degree and was then accepted to University of Florida College of Dentistry. After receiving his Doctor of Dental Medicine Degree, Dr. Chace and his wife, Dr. Jennifer Chace, began a practice together.

Dr. Chace has been involved in organized dentistry for many years with the Brevard County Dental Society and the Central Florida District Dental Association, where he is the current vice president. He has attended the FDA's Dentists' Day on the Hill (DDOH) at the Florida Capitol for the past decade to advocate for Florida patients and efforts to further the dental profession.

About the Florida Dental Association

As the state's premier professional organization representing Florida-licensed dentists, the Florida Dental Association (FDA) serves as Florida's advocate for oral health. A constituent society of the American Dental Association, the FDA was established in 1884 to ensure patients receive the highest quality of care from dental professionals. The FDA is the leading expert and advocate on issues affecting Florida dentists and the oral health of Floridians. To learn more, visit www.floridadental.org.
